Hassle-Free Equipment Recycling & Disposal

Responsible Recycling
Secure Data Destruction
Onsite Equipment Pickup
Tailored for Your Business

WE DO NOT CHARGE FOR MOST EQUIPMENT!

Any and all service charges or fees are explained right up front.

Simply call and tell us what items you need picked up, and we will inform you right away if there will be any charges or service fees.

WE DESTROY ALL CONFIDENTIAL DATA!

Your personal, confidential, and proprietary information is VERY important to us, and we take that responsibility quite seriously.

All drives containing data are promptly removed and stored in a secure location until the data is wiped or the drives are physically destroyed.

We use multiple-pass data destruction software that erases and re-writes every sector of the hard drive to prevent any recovery of information.

You can choose to have your hard drive physically destroyed. We will punch a hole in the disk and have the drives magnetically wiped for double security at no extra cost to you.

Earth Friendly
E-Waste
Solutions

Mid-Iowa
COMPUTERS Inc.

E-waste solutions that work for your business

BEING ENVIRONMENTALLY RESPONSIBLE HAS NEVER BEEN EASIER!

ALL DATA IS DESTROYED

- STORED IN A SECURE LOCATION
- HARD DRIVES OPERATIONALLY OR MAGNETICALLY WIPE OF DATA
- CAN OPT TO HAVE HARD DRIVES DRILL- PUNCHED & DESTROYED
- DESTRUCTION CERTIFICATES AVAILABLE UPON REQUEST.

We are able to handle both large and small pick-ups of equipment for recycling. We can work on an as-needed or scheduled pick-up basis. Monthly and/or quarterly scheduled pick-ups are available for your convenience. We can work with your IT department to make sure all equipment is documented for inventory purposes.

flexible solutions for your business needs

FRIENDLY AND PROFESSIONAL

All pick-ups are made by our courteous and helpful staff of technicians. We pride ourselves in our professionalism.

LET US INVENTORY IT!

We are able to pick up your equipment and inventory it as we unload it to our shop. We can write down any model/serial numbers, asset tag numbers, amount of hard drives, etc and email, mail, or fax you a copy for your convenience.

A LEADER IN E-RECYCLING

Just in the last six months we have kept more than 5 TONS of e-waste and toxic electronic equipment out of in our landfills. This protects our water, our wildlife, and most of all our families from hazardous chemicals and toxic pollutants.
